

I was recently made aware of a possible rule change that would allow LPFM stations priority over our FM stations. If this were allowed, our KLOVE radio signal would be lost. This would be detrimental to a station such as KLOVE that provides family friendly programming with positive and encouraging messages. While WE as a Nation continue to battle the broadcasted evils against our children, KLOVE has a positive impact locally and Nationally. No longer do I worry about foul language or degrading comments made on some stations that may have an impact on my young children. Please, I ask that you reconsider this ruling on broadcasting service of LPFM. The service provided by K-LOVE is so uplifting and positive, it provides us with some "fresh-air" in an otherwise unfriendly, negative environment for us (and especially for our kids). Again, please reconsider this action. Thank You
